

Jojie Lad Lanete

Software Engineer / Automations Engineer

jladlanete.dev | lanetejlad@gmail.com | +639760275569 | [linkedin/JojieLadLanete](https://www.linkedin.com/in/JojieLadLanete)

Professional Summary

Performance-driven Software and AI Automation Engineer with a track record of architecting autonomous workflows, optimizing backend applications, and executing zero-downtime framework migrations. Expert at bridging complex infrastructures with modular, agentic AI solutions to eliminate operational overhead and maximize efficiency.

Technical Skills

Languages: HTML, CSS, JavaScript, PHP | **Automation:** Make.com, n8n, Zapier, AI Workflows

Frameworks: Laravel, CodeIgniter, WordPress, Vue, Inertia | **Databases/Tools:** MySQL, Git, GitHub, GitLab

Competencies: Full-Stack Development, System Security, DB Optimization, Analytics (Adobe, TMS)

Professional Experience

DobotAI

AI Automation Engineer | February 2026 – Present

- **Architected and deployed** 15+ multi-agent autonomous workflows using n8n, Make.com, and Zapier, reducing manual data processing time by 40% for enterprise clients.
- **Engineered a modular Lead Capture AI Agent** integrating Typeform, Calendly, and Close CRM, increasing booking conversion rates by 25%.
- **Designed an end-to-end Onboarding AI Agent** that automated workspace provisioning across Slack, Google Drive, and Gmail, cutting client onboarding time from 2 hours to under 5 minutes.
- **Developed an automated Newsletter Email Agent** utilizing OpenRouter to curate, rank, and summarize content from RSS and IMAP feeds, saving editorial teams 10+ hours weekly.

CTC BPO

Software Engineer | May 2024 – Present

- **Spearheaded the comprehensive migration** of a legacy core Human Resource Information System (HRIS) to a modern Laravel, Vue.js, and Inertia.js stack, reducing page latency by 60%.
- **Refactored legacy database schemas** and implemented role-based access control (RBAC), securing sensitive data for 1000+ internal active users.
- **Designed and integrated a secure 2FA alternative** routing one-time passwords via the Openfire REST API to Spark IM clients, decreasing authentication friction by 20%.
- **Conducted targeted technical training sessions** on new HRIS modules, accelerating internal user adoption by 20% within the first 60 days of launch.

Remie Australia

IT Consultant (Part Time | Concurrent) | January 2023 – April 2024

- **Managed endpoint security and system compliance** for a distributed team of 30+ remote contractors, maintaining a 99.8% network uptime rate.
- **Executed monthly IT compliance audits** and configured secure software environments, reducing device vulnerability flags by 45%.

Proweaver Inc.

Web Developer | August 2023 – December 2023

- **Developed and launched** 150+ custom, responsive WordPress websites using PHP and JavaScript, ensuring 100% cross-browser compatibility.
- **Optimized front-end performance** and SEO structures, driving an average 15% improvement in Google Lighthouse speed scores.

Education

University of Southern Philippines Foundation | 2019 – 2023

- Bachelor of Science in Information Technology
